

# Imtwaha Fish Hatchery, and Rich Allen's Gas Pump Museum

This tour will take us east, along old Hwy 11, which is now Adams Rd. It's a nice slow easy drive with no traffic. We will go to the small City of Adams, then head north a short distance, then east again through the City of Athena, then cross Hwy 11 and on to the City of Weston. Weston is famous for the Long Branch Cafe and Lounge, a wonderful place for Breakfast or Lunch! If you have time this week, you should make a trip just to eat! After we go through Weston we'll continue on down old Hwy 11 to the City of Milton- Freewater. We will then turn up the Walla Walla River and come to the Confederated Tribes of the Umatilla Indian Reservation's Imtwaha Fish Hatchery, where we will stop for a tour of the facility, after a nice winding slow drive up the river. Keep an eye out for what's left of the wooden pipe, about 4 feet in diameter, that lines the hillside. The wooden water pipe was built to power a Hydroelectric generating plant. From here, we will return to Milton-Freewater and proceed on Hwy 11, across the Washington boarder, to the old Milton Hwy, turn right, and proceed to Rich Allen's Gas Pump Museum. Rich has a wonderful collection of early gas pump, some dating to the late 1800's! You don't want to miss this one!

Drivers Meeting at 8:30am **Remember, if you're not 15 minutes early, you're late!**

Leave Pendleton at 9:00am *All mileage is between changes as noted (Turns, merge, etc.)*  
*All changes will be marked with signs.*
